Dear Green Sanctuary Program:

We enthusiastically endorse this application for Green Sanctuary Accreditation for All Souls Unitarian Church, Indianapolis. All Souls' history of concern for the environment and its commitment to work for environmental justice and to mitigate the effects of climate change show it richly deserves to be counted in the ranks of UU Green Sanctuary congregations.

It has been continuously involved with environmental issues since the very first Earth Day - 50 years ago, and with its Net Zero Carbon project it has plans to continue for the next 30 years. The congregation has evolved its consciousness of environmental concern through several years of growing awareness of the intersectionalities of social issues - especially environmental racism and white supremacy's impacts. It is now more closely aligned with the direction of UU Ministry for Earth and its teachings.
